

## HALOGEN & SCIALYTIC LAMPS

True-vision Halogen and Ace Lamps Wall, Stand Mounting or Table Clamp with Light focus adjusting and movable from the center for Celiac operation.

- Code 30760** Single Bulb Halogen Lamp with stand
- Code 30747** Two Bulb Halogen Lamp with stand
- Code 30703** Three Bulb Scialytic Lamp with stand
- Code 30713** Three Bulb Scialytic Lamp wall mounting
- Code 30780** Five Bulb Scialytic Lamp with stand
- Code 30781** Five Bulb Scialytic Lamp wall mounting
- Code 30787** Twelve Bulb Scialytic Lamp with stand
- Code 30790** Twelve Bulb Scialytic Lamp wall mount.

## LAMP With LENSES

Flexible and auto-stand support for easy and optimal placement. Ring light incorporated for better subject vision. Wide circular magnifier lenses – Table Clamp

**Code 1480-00**

Lamp with Lenses, table clamp

**Code Stand-LP**

Ground stand for Infrared and lense lamps

## INFRARED LAMPS

- Code LIR 250W** Infrared Lamp
- Code HB 121-IR** Electronic unit with rectal probe (specify mouse or rat)

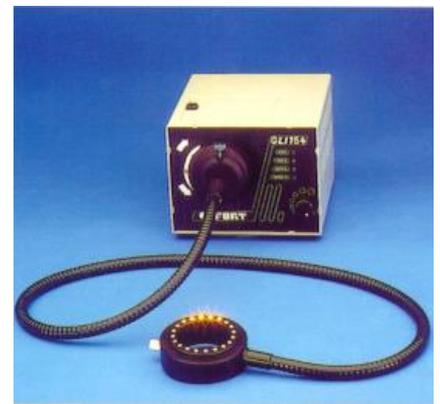

Very useful to pre-warm animals before carrying out Non Invasive Blood Pressure measurements on their tail. This save times, ensures more reliable results and enables the operator to measure quickly large numbers of animals. The lamp can also be used to warm animals after surgery and it can be driven by a rectal probe and thermostatic electronic unit . Power is 250 W. – Table Clamp

## OPTIC FIBER ILLUMINATORS

Especially designed to conduct light (150 W) where it is needed, leaving heat and electrical interference behind. Ideal for small animal surgery. It features gross and fine light intensity adjustment. A single or a dual stereo microscope Optic Fiber can be easily linked, they can be provided with different length (60 or 120 cm) and different diameter (4 or 8 mm). The single and dual Optic Fibers are semi-flex for an easy orientation. The Illuminator is supplied with a series of colored filter in order to obtain the desired light spectrum

- Code GLI 156P** Optic Fiber Illuminator mod.
- Code 2xFO** Dual Optic Fiber 60 cm Ø 4 mm
- Code 1020** Illuminator GLI156P + double guide 2xFO

- Code R-8-8** Ring Light guide ID 58 mm
- Code OF-BL** Spare Bulb 150 W (replacement)
- Code 5xOFBL** Pkg. of 5 Spare Bulb 150W (replacement)

**Headband Magnifier with Light Pipe Guide** (left picture) Precision ground and polished optical glass lenses. The padded headband is fully adjustable and with the lightweight ABS plastic tilting visor will give wearing comfort over many hours. Can be worn with spectacles.

**Large field magnifier** (right Picture) features a 2.8x (7D) lens with an additional "snap-on lens" for a 3.8x (11D) total magnification. Tilttable lens provides for multiplue viewing angles. Bright LED lights emit clean white light for optimum color and resolution.
