

The **TAILVEINER®** is the first easy to use mouse and rat restrainer designed for tail vein injections. The slotted tube permits the rat or mouse to be quickly pulled in by the tail.

Code TV 150 Tailveiner for Mice

Code RTV 170 Tailveiner for Rats up to 120 grams

Code RTV 180 Tailveiner for Rats up to 350 grams

Code RTV 190 Tailveiner for Rats up to 500 grams

Common Restrainers: used for several purposes for conditioning animals, injections, etc.

Code LE 5016 Restrainers for Mice up to 35 grams

Code LE 5018 Restrainers for Mice up to 50 grams

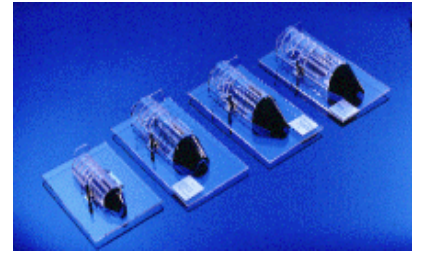

Code LE 5020 Restrainers for Rats up to 150 grams

Code LE 5024 Restrainers for Rats up to 400 grams

Code LE 5025 Restrainers for Rats up to 500 grams

Restrainers and Tailveiner

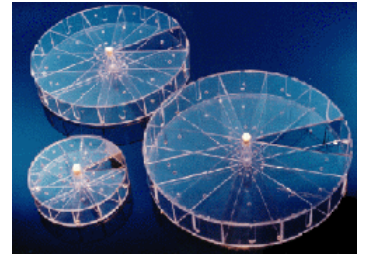

Pie Cages

Circular cages hold up to 10 mice or 11 rats. The notched removable lid can be dialed to any of the ventilated pie-shaped chambers. These units were originally designed for whole body irradiation. Use for temporary transport or storage of animals for acute studies. The rat cage has tail slots for intravenous dosing.

Code MPC Mouse Pie Cage - **Code RPC-1** Small Rat Pie Cage (up to 250 grams)

Code RPC-2 larger Rat Pie Cage (up to 400 grams) Available also for AEROSOL delivery

Rabbit Restrainer

Adjustable, suitable for any size

Useful for Pyrogen Test, temperature control, ear investigation and whatever else

Code 2BRR Rabbit Restrainer

RadDisk™ Rodent Microisolation Irradiator Disk

Using multiple Rad Disk™, it is possible to conduct sequential irradiations on groups of up to 20 mice (no divider) without the need of autoclaving cages between each use, because the interior of the Rad Disk™ maintains a filter protected sterile environment. Rad Disk™ uses a patented offset design that allows vertical stacking of cages so that adequate airflow reaches each cage.

Code IRD-P-R Rodent Irradiator Cage with Divider System

Code IRD-P-M Mouse Irradiator Cage with Divider System

Code IRD-FLT-R Rodent Irradiator Cage filters **Code IRD-FLT-M** Mouse Irrad. Cage filters

Digital Calipers

Electronic digital calipers are a joy to work with. Readings in inches or metric at the touch of a button. Resolution of .001" or 0.01 mm.

Floating zero feature allows scale to read plus or minus a set point without calculations. Stainless steel. Lockable. **Code 58750** Digital Caliper

PLATFORM TRAY TROLLEYS

- Manufactured in Stainless Steel
- Easily Cleaned
- Easily maneuvered
- 4 quiet Wheels
- 2 Wheels brakes
- 2 Platform Trolleys
- 3 Platform Trolleys
- Smooth Hedges
- Raised edges.
