

Teg

Euthanasia CO2 mobile station

- Only for rodents (except new born)
- Fully automatic
- 2 carrier gas mixing system
- Easy touch screen interface

■ Dimensions

TEG V4 dimensions: 660x800x900 (WxDxH).
Weight : 70kg.

Euthanasia compartment: 591x617x248 (WxDxH)

Mecanics

- 4 wheels table with 2 brakes.
- **Stainless housing can receive up to 1 type 4S cage**
- Translucid PMMA Top (or Red in option).
- TRESPA workstation.

Gas circuitry

- Electronic valves and flowmeters
- Embedded air compressor 46 dB for 50L/min (optional)
- Four programmable cycles

Peripherals

- CO2 bottle support
- Water recuperation system
- Lime filter in a rack for 5 liters
- Can be connected to building exhaust
- Low consumption : 1 rack for 12 cycles

CO2 CONCENTRATION
